WELDING LEATHER

STRATA CHROME LEATHER WELDING BLANKET 1800 x 1800mm

#200824

Engineered for maximum safety and durability, this welding blanket offers reliable protection against sparks, spatter, and molten metal. Perfect for a wide range of applications - whether you're performing MIG, TIG, or ARC welding - it also delivers exceptional shielding during plasma or gas cutting, as well as abrasive wheel cutting and grinding. A trusted essential for maintaining a safe and efficient workspace in any welding or fabrication environment.

FEATURES

- ✓ Heavy duty chrome leather for added heat resistance
- ✓ Eyelets around the outer edge for securing blanket in place
- ✓ Kevlar stitched for additional resistance to heat and abrasion
- ✓ Size: 1800mm x 1800mm
- ✓ Weight 2.8kg
- ✓ No melting or dripping
- ✓ Durable, withstands long-term use in welding applications

*Direct contact with flames can cause charring shortening the life of your blanket. While leather can withstand short-term exposure to high temperatures, prolonged exposure to temperatures above 200°C (392 F) is not recommended.
