

# DW3000

AUTO DARKENING WELDING HELMET

**For MIG, TIG, ARC and PLASMA**

- Lightweight, high strength and durable
- Clear view precision filter
- Four sensors for lightning fast operation
- Lens sensitivity controls
- Lens lock function for grinding
- Variable Shade 9 - 13 for MIG, TIG, and ARC
- Shade 5 -8 function for Plasma cutting
- Solar / Lithium Ion battery powered
- EZ comfort fully adjustable headgear

**INDUSTRIAL RANGE**

AS/NZS 1338.1:2012

Power:	Dual power - solar & lithium ion
Viewing Area:	100 x 53mm
UV / IR Protection:	Up to Shade DIN 16 at all times
Operating Temperature:	-10°C ~+60°C
Light State:	Shade DIN 4
Variable Dark Shade:	Shade DIN 5 - 8 / 9~13
Switching Time- Light to dark:	<1/30000 sec (+23°C)
- Dark to light:	Adj. 0.1~1.0 sec
Sensitivity Adjustable:	MIG, TIG, ARC, + Plasma function
Shade Adjustment Knob:	External
