

# STRATA

SUPERIOR WELDING PRODUCTS

## TIG Welders

### 180A Inverter TIG Welder

#EZITIG180

- Super lightweight only 5.5kg
- 4m TIG torch + earth & arc leads
- DC TIG and MMA (stick) function
- Voltage spike & generator safe
- Ideal for on-site maintenance and stainless steel
- 2T/4T trigger control
  - great for longer welds
- 2 year industrial warranty.

### 200A Inverter DC TIG Welder

#ADVANCETIG200

- Pulse TIG/MMA processes
- Adjustable amps, pulse, duty, frequency - save the perfect job setting - up to 10 different jobs!
- PFC Technology for next generation performance
- Super lightweight only 9.0kg
- Wireless foot control capable
- Multi-voltage input, great for using with extension leads
- 3 year industrial warranty.

### 200A Inverter AC/DC TIG Welder

#ADVANCETIG200ACDC

- Pulse TIG/MMA processes
- Adjustable amps, pulse, duty, frequency - save the perfect job setting - up to 10 different jobs!
- PFC Technology for next generation performance
- Super lightweight only 9.0kg
- Wireless foot control capable
- Multi-voltage Input, great for use extension leads
- 3 year industrial warranty.

## Plasma Cutters

### 40A PFC Inverter Plasma Cutter

#ADVANCECUT40

Sever cut up to 20mm carbon steel with revolutionary new PFC Technology. Ensured reliability and performance with the use of an IGBT inverter, pilot arc torch and multiple safety protections.

- Super light weight only 7kg
- 60% Duty cycle @22A
- Voltage spike & generator safe
- 3 year industrial warranty.

(\$2139 incl. gst)

### 65A 3 Phase Inverter Plasma Cutter

#ADVANCECUT65

A tough compact 3 phase unit with IGBT inverter technology, capable of severing up to 35mm carbon steel with CNC interface capability.

- Requires 110L/min or 5 bar compressed air supply to run
- Light weight at 24kg
- Automatic pilot arc system
- Microprocessor control system for superior and dynamic arc characteristics
- Extreme stress tested to 550V in production for rugged reliability.

(\$2972.75 incl. gst)

### 40A Inverter Plasma Cutter

#EZICUT40

- Severance cut 25mm, rated cut 20mm steel and 16mm aluminum
- Digital display and adjustable post gas ensure long consumable life
- Thermal overload for safety
- Pilot arc start for use around sensitive electronics
- Over and under voltage protection / spike safe
- Robust steel case to withstand industrial environments
- 2 year industrial warranty

# ARC Welders

## 160A Inverter ARC Welder

#EZIARC160

The EZIARC Series of MMA (stick) welders pack a punch at a lightweight 3.8kg. Built tough for on-site work & engineering applications. The EZIARC160 is very versatile with the latest hotstart/antistick technology easily contriving from 1.6mm to 4.0mm low hydrogen or general purpose electrodes.

- 60% at 130A duty cycle
- 74V open circuit volts
- Complete with twist lock electrode holder and 3 & 4m cables
- Generator / voltage spike safe
- Optional lift tig function
- 2 year industrial warranty.

## 200A Inverter ARC Welder

#EZIARC200

This single phase, generator safe unit with direct current output has a tough IP23 protection rating against salt spray, moisture and corrosion. The Intelligent Protection System with temperature, voltage and current sensors makes this the reliable, safe choice for a range of uses.

- 10-200A
- Automatic arc force, hot start & antistick
- 60% duty cycle at 145A
- Optional Lift TIG
- Constant current
- 2 year industrial warranty.

## 3 Phase ARC Welders

The Advance Series 3 Phase MMA (Stick) Welders feature the latest in IGBT technology and high tech specs for industrial use. IGBT means increased reliability and performance for demanding industrial conditions. Bulletproof overspec internals factory tested to 550V and IP23 External (abuse) rating.

- High 60% duty cycle @400A
- Designed for using cellulose welding rods
- Selectable VRD Protection for increased safety
- Microprocessor control system for superior and dynamic arc characteristics
- Adjustable arc force, hot start & anti-stick control
- Digital current display meter for accurate pre-setting and feedback of welding parameters & output.
- 3 year industrial warranty.

### 400A PFC Inverter ARC Welder

## 1000A Air Gouging Torch

#GTK4000

- Heavy-duty fibreglass reinforced insulators, lever, and handle
- Takes 4-10mm carbon electrodes
- Only 3.6kg
- Up to 10000A Capable
- Spare insulators, valves and contacts available

**SAVE OVER**  
**\$70**

**\$285** +GST  
(\$327.75 incl. gst)

## Gouging carbons

- Suit GTK4000 Air Gouging Torch

### 8mm Gouging carbons

## Industrial Welding Trolley

#17386

- Convenient accessory storage
- Super heavy duty wheels and castors
- Gas bottle chains and pinion for MIG wire feeder
- Takes 'G' size gas bottle
- Fits welding machines: ADVANCE MIG 350 / 500, ADVANCEARC 400 / 500 ADVANCETIG320

**\$635** +GST  
(\$730.25 incl. gst)

# MIG/ARC Welders

Take the effort out of welding!

Inverter technology, MIG/ARC function, arc force adjustment and 4 roller drive make the Strata EZIMIG200 a great choice in workshops and on site environments.

- Super lightweight only 20.4kg
- 15kg wire spool capable
- Real time digital display
- Voltage spike & generator safe
- Ready to weld with leads & MIG torch
- 3 year industrial warranty.

## 200A Inverter MIG/ARC Welder

## 250A Inverter MIG/ARC Welder

#XM255PRO

- 250A @ 60% duty cycle
- Fully variable voltage and wire speed controls
- Gas/gasless MIG & MMA (ARC welding)
- Digital voltage and amperage display
- Optional 2.5m / 6m standard spool guns
- Heavy duty gas bottle trolley
- 2 year industrial warranty

**\$2370** +GST

## 250A PFC Inverter MIG/ARC Welder

#ADVANCEMIG250

IGBT and PFC Inverter Technology plus a cutting edge LCD Screen make this unit the ultimate tool for serious industrial workshops.

- Super lightweight only 23kg
- 15kg wire spool capable
- 60% duty cycle @ 165A
- 4 roller drive
- Synergic programs for easy set up on multiple materials
- 230V single phase input power
- Lift tig operation with downslope, post gas and remote current control (Torch optional)
- Spool gun ready
- 3 year industrial warranty.

**\$2585** +GST  
(\$2972.75 incl. gst)

## 200A PFC Inverter MIG/ARC Welder

#ADVANCEMIG200

IGBT and PFC Inverter Technology and cutting edge Synergic program - the ultimate tool for serious industrial users.

- 60% duty cycle @ 165A
- Super lightweight only 12kg
- 15kg wire spool capable
- 4 roller drive
- Synergic programs for easy setup on multiple materials
- 3 year industrial warranty.
